

REVISED ARTICLE PROCESSING AND PUBLICATION FEES

Processing fees: Article processing fees of ₦4,000 or (\$20USD) should be paid by the author on submission of a manuscript. This payment is non-refundable and is used to facilitate reviews.

Publication fees: We charge publication fees based on the length of the final revised and accepted article. Basically, total number of Figures, Plates and Tables should not exceed 10 per article. Each subfigure is counted as a Figure. Figures and Tables whose size is up to half a page will be counted as three. Figures and Tables that cover a whole page are counted as 6 figures. Table 1 should be used to determine the publication fees.

Table 1: Estimated article publication fees irrespective of number of authors

Category	Total Number of words in the article	Cost for Nigerian-based authors (Naira)*	Cost for Non-Nigerian based authors (US\$)*
A	500 – 2,000	23,000	80
B	2,001 – 3,000	30,000	115
C	3,001 – 4,000	35,000	135
D	4,001 – 5,000	40,000	150
E	5,001 – 6,000	45,000	165
F	6,001 – 7,000	52,000	185
G	Above 7,001	To be determined if article is accepted	

*** For all articles, an additional ₦2,100 (or \$10.00) is charged per author as cost for sending the print issue by ordinary surface mail postage (NIPOST) or proxy. All Nigerian-based authors receive print issues by default as NIJOTECH enjoys vast distribution of published information for ease of access. Only foreign authors may decline receipt of print issues.**

For articles whose corresponding author has a Nigerian address and there are co-authors that are non-Nigerian, the Naira component of all fees should apply.

Articles with total number of Figures, Plates and Tables exceeding 10 and or word length of more than 6501 will normally not be acceptable but for articles that may be judged uniquely eligible for publication based on reviewer’s comments, publication cost for such long articles will be provided at the time of acceptance.
